

## RANDOM MOVIE STUDIOS

Welcome to Random Movie Studios! They say that if you fill a room with a million chimps with dice they'll eventually write Cybertracker 2... Or there's a similar theory anyway. The point is, we fired our old studio executives and replaced them with dice-rolling monkeys. If you need an idea for a new film, why not see what they come up with?

They roll one die to pick a list, and a second die to pick an item in that list. Here goes Bo-Bo now!
